

I am simply tired of trying to get off of Telemarketing lists. I have consistantly checked boxes from vendors and service providers that state I want to "Opt Out" of Telemarketing, etc. I have written all Credit Card Service firms and Banks I do business with to "Opt Out". I have contacted the major Telemarketing Centers to "Opt Out". Yet I still get Telemarketing calls and FAXes. We need an National "Opt Out" that will make all violators liable, preferably on the first call.

Thank you,
